PROJECTS

Mentor Pilot

Category : Social Networking , Platform : Android and iOS

- **Description:** Developed a cross-platform app to pair mentors and mentees based on interests. Enabled personal chat, project assignments, and progress tracking through a CMS. It also supports multiple time zones to facilitate global mentorship.
- **Role:** Lead Developer
- **Technologies:** React Native, Redux, Firebase, Socket.io , Third-Party APIs

WORK EXPERIENCE

Artoon Solutions Private Limited

Junior React Native Developer

2023/10 – present | Ahemdabad

- Developed and maintained high-performance cross-platform mobile applications for Android and iOS, ensuring robust code quality.
- Managed projects independently from concept to deployment, liaising with clients and project managers to align on requirements, timelines, and deliverables.
- Actively participated in Agile processes, including daily stand-ups and sprint planning, to ensure timely and successful project outcomes.

Emed Health Tech Private Limited

Junior React Native Developer

2022/07 – 2023/10 | Ahemdabad

- Developed and maintained high-performance mobile applications using React Native, ensuring responsiveness and robust functionality.
- Collaborated with designers and backend developers for seamless UI integration and data flow, while implementing new features and enhancements.
- Conducted code reviews, provided constructive feedback, and resolved bugs to optimize code quality and maintainability.

EDUCATION

B.E in Computer Engineering

Gyanmanjari Institute of Technology, Bhavnagar

2019 – 2023 | Bhavnagar, India

Click+Cure

Category : Medical , Platform : Android and iOS

- **Description** : Developed a comprehensive React Native mobile application consisting of two distinct interfaces: one for patients and one for doctors. The patient interface allows users to book home visits, hospital visits, and video consultation appointments with registered doctors, supporting multiple languages to cater to a diverse user base. The doctor interface enables doctors to manage appointments, generate e-prescriptions, assign lab and pharmacy tasks, and modify appointment prices.
- **Role**: Lead Developer
- **Technologies**: React Native, Redux, Firebase, Third-Party APIs & Libraries.

QR Bucket

Category : Utilities , Platform : Android

- **Description** : Developed a react native Application for Scanning and generating QRcode in just a one tap. Users can generate and customize Qrcode . Users can share Qrcode with anyone. Store history of the Qrcode.
- **Role** : Independent Developer
- **Technologies** : React Native , Redux , Firebase , Third Party Libraries
